DETAILED ACTION

1. This is in response to the amendment filed December 30, 2008. Claims 1-3, 7, 14 been amended. Claim 5, 6, , 8-13, 15-17 and 19-21 have been have been cancelled. Claims 1-4, 7, 14 and 18 are pending and have been considered below.

Examiner's Statement of reason of Allowance

The prior art references of record do not teach or render obvious the limitations as recited in independent claims 1, 7, 14 and 18 specific to providing a public key comprising an exponent-interval description including said first random limit, and an interval width specification and a public key value derived from the random secret key, said public key value including a random prime value, a number (n) corresponding to a product of two large prime numbers forming said secret key, said exponent interval, and two public values from a set of elements having a square root modulo n, such that the random secret key and a selected exponent value from the plurality of exponent elements in said exponent interval are usable for deriving a signature value on a message to be sent within the network to a second computer node for verification.

Conclusion
